Commenting on the result, the Group Chief Executive Officer, Kennedy Uzoka said;

"I am pleased with the half year performance of the Group, having delivered 14% growth in gross earnings and 21% growth in profit before tax.

In spite of the subdued yield environment in some of our large markets, we achieved a 9% growth in interest income, and defended the net interest margin. We also achieved a 39% growth in our electronic banking revenues, as we broaden and deepen our digital banking play across Africa. Revenues from our remittance and funds transfer businesses grew 69% and 53% respectively. All these attest to the efficacy of our strategies and resilience of our business model."

He further stated "I am very optimistic that the ongoing Group-wide transformation program, will in the quarters ahead, enable the Bank deliver substantial operational efficiencies and best-in-class customer service, which would ultimately boost earnings. We sustained our asset quality, with the NPL ratio down to 5.62%, from 6.45% as at 2018FY. We would continue to adopt best practice standards to grow and manage the portfolio in the quarters ahead."

Also speaking on UBA's results, the Group CFO, Ugo Nwaghodoh said;

"We had a strong start in the year given the prevailing macroeconomic environment across our various markets. There is better dispersion in profit contribution as our banking subsidiaries across Africa contributed 38% of the profit before tax, whilst our recently repositioned UK business contributed 4%. We expect this dispersion to continue, as the subsidiaries consolidate on their share of the various markets.

I am particularly delighted that the key ratios are trending in the right direction. The net interest margin at 6.4% is trending upwards and will continue to improve as we responsibly grow the risk asset portfolio and realign the funding mix to lower our cost of funds. The cost-to-income ratio (CIR) trended down to 60% as we focus on balance sheet and operational efficiencies which should enable us deliver our medium term CIR target. Capital adequacy ratio increased to 28% from 23.6% in December 2018, providing very strong buffer for asset growth.

Caution regarding forward looking statements

From time to time, the Bank makes written and/or oral forward-looking statements in press releases and other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media and others. All such statements are intended to be forward looking statements. Forward looking statements include, but are not limited to, statements regarding the Bank's objectives and priorities for the second half of 2019 and beyond, as well as strategies to achieve them, and the Bank's anticipated financial performance. Forward looking statements are typically identified by words such as "will", "should", "believe", "expect", "anticipate", "intend", "estimate", "may" and "could".

By their very nature, these statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the financial, economic and regulatory environments, such risks and uncertainties – many of which are beyond the Bank's control and the effects of which are difficult to predict – may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause such differences include: credit, market (including equity, commodity, foreign exchange, and interest rate), liquidity, operational, reputational, insurance, strategic, regulatory, legal, environmental, and other risks. All such factors should be considered carefully, as well as other uncertainties and potential events, and the inherent uncertainty of forward looking statements, when making decisions with respect to the Bank and we caution readers not to place undue reliance on the Bank's forward looking statements.

Any forward looking statements contained in this press release represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank's investors and analysts in understanding the Bank's financial position, objectives and priorities and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.
